

“Stars” participating in this program will build the following skills... and more!!!

Self Confidence & Self Esteem- Students gain self-confidence & self-esteem as they succeed in the hands-on learning of theatre arts skills and as they learn to perform to the best of their ability in front of their peers.

Team Building-

Students learn how to work together as a theatrical team and how to be responsible to a community of young people.

Awareness of Self & Others-

Students are taught how to move onstage as well as how to create a specific movement for their characters, which develops their perspective of their own movement and that of those around them.

Reading & Comprehension Skills-

Students use class time to read and understand their scripts; exploring the scripts through acting exercises increases multi-level learning.

Speaking & Listening Skills-

Acting involves listening as well as speaking. Students learn how to listen to one another on and off stage, increasing their communication skills. They also increase their public speaking skills.

...Also Offering...

Themed Birthday Parties right in your own home!

About Classes...

Each session is designed To focus on the Fundamentals of theatre and prepare students for future acting endeavors through interactive storytelling. Learn theatre games, movement, vocal control, improvisation, scene work, song, dance, and performance skills in this exciting class. Students will work to create a final presentation, showcasing their new found skills which will be performed on the last day of the session.
